The essence of the ...
Disciple Experiment

We were made to be Giants, confident of our standing with Thee, Giant of the universe. But this world deceives, trying to shrink us to some little, miniature stature. Self-doubt, temptation, fear among its tools. Yet we retain our Giant size by using the tools of the Giant's own hand-picked Leader. And carrying the Leader's tools of love, humbleness, and forgiveness, we boldly walk with Giant-sized steps upon this world.
